Fracking chemicals disclosed around a focal point

FracFocus download date: January 18, 2024

Open-FF data repository: openFF_data_2024_01_18

This report generated on January 30, 2024

This is a report summarizing the chemicals disclosed in FracFocus within a defined radius around a focal point. This report was generated by a Jupyter notebook developed by the Open-FF project with the intent of making the chemical disclosures of FracFocus more accessible to the public.

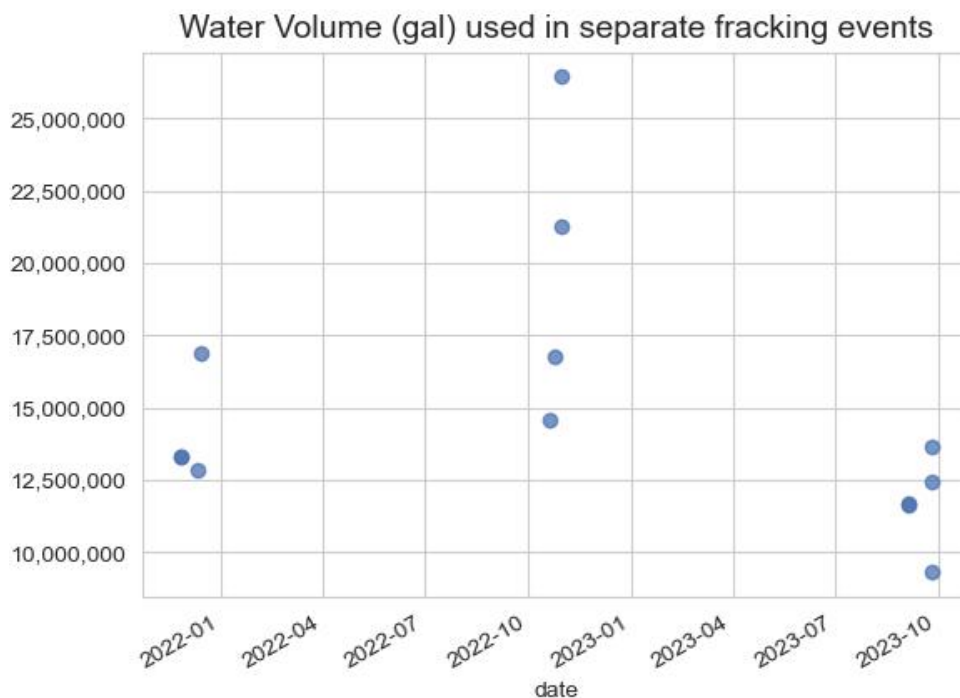

Focal Location

Latitude: 40.38415163662122
Longitude: -79.62416933177497
Search radius: 5280.0 feet
